**Instructions To Candidates**

Write your name and index number in the spaces provided above.

Sign and write the date of extermination in the spaces provided above.

This paper consist of three sections A, B and C

Answer all the questions in section A and B and any two questions in section C.

Answer all questions in the spaces provided

**For Examiner's Use Only**

Section	Question	Maximum Score	Candidate's Score
A	1 – 20	30	
B	21 - 26	20	
C		20	
		20	
	<b>Total Score</b>	90	

*This paper consists of 8 printed pages*

*Candidates should check the question paper to ensure that all pages are printed as indicated and no questions are missing*

## SECTION A (30 Marks)

*Answer all the questions in this section in the spaces provided*

1. Give two uses of a rotavator. (1mk)  
.....  
.....
2. Give three reasons for breeding in livestock (1 ½ mks)  
.....  
.....  
.....
3. State two advantages of Biogas instead of charcoal as a source of power on the farm. (2mks)  
.....  
.....

.....  
.....  
.....
14. State four signs of furrowing in sow. (2mks)  
.....  
.....  
.....  
.....
15. Name any two examples of two-host ticks. (1mk)  
.....  
.....
16. Give two uses of differential in a tractor. (1mk)  
.....  
.....

17. Give three characteristics of succulent roughage

(1 ½ mks)

.....  
.....  
.....

18. State four reasons why a farmer would choose to user a disc plough rather than a mould board plough

(2mks)

.....  
.....  
.....  
.....

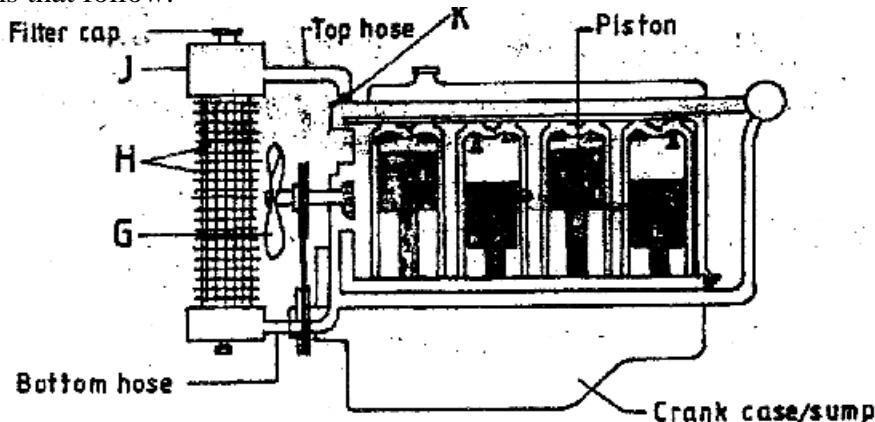

19. State the appropriate use of the following tools

- (a) Troca and Canula..... (½ mks)  
(b) Bollus gun..... (½ mks)

### SECTION B (20 Marks)

*Answer all the questions in this section in the spaces provided*

20. The diagram below shows the cooling system of a tractor engine. Study it carefully and answer the questions that follow.

- (a) Name the parts labeled G, H, J and K (2mks)

G.....

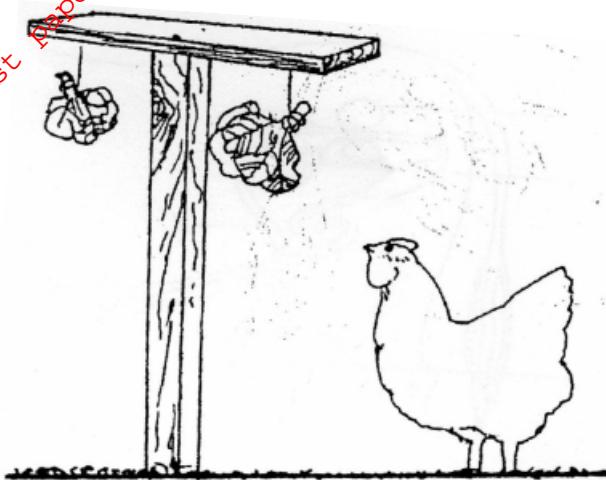

H.....

J.....

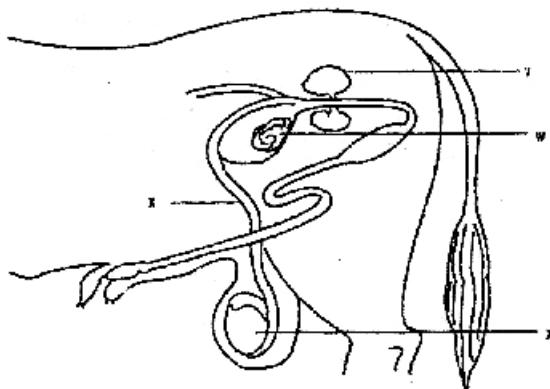

K.....

- (b) State the functions of the parts labeled G, J and K in the cooling system. (3mks)
- G.....
- J.....
- K.....

21. The diagram below illustrates a method of providing feedstuff to a chicken in a chicken house. Study the diagram and answer the questions that follow.

- (a) (i) What type of feedstuff is illustrated in the diagram above? (1mk)  
.....
- (ii) Give one reason why the feedstuff should be suspended above the height of the chicken (1mk)  
.....
- (iii) Give three reasons for including the feedstuff illustrated in the diagram in the diet of layers. (2mks)  
.....  
.....  
.....
- (b) The diagram below represents the reproductive system of a bull. Study it and answer the questions that follow.

- (i) Label the parts v, w, z and x (2mks)

v.....

w.....

z.....

x.....

- (ii) State the functions of v and w (2mks)

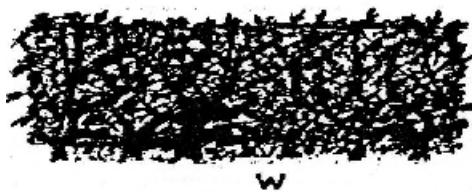

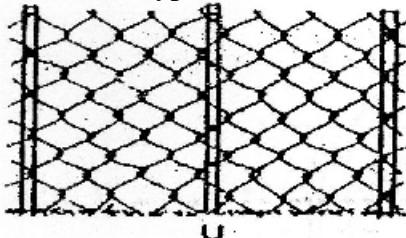

v.....

w.....

- (iii) Name two examples of breeding diseases transmitted by bulls. (1mk)

.....

22. The illustration below shows two types of fences. Study them and answer the questions that follow

- (i) Name the type of wire fence in the diagram U above. (1mk)

.....

- (b) Name the type of fence illustrated in diagram W above. (1mk)

.....

- (c) Name one correct material and one tool used for fastening the wire onto wooden posts when constructing the type of fence illustrated in U above. (1mk)

.....

.....

- (d) State three advantages that fence V may have over fence U. (3mks)

.....  
.....  
.....

### SECTION C (40 Marks)

*Answer any two questions in this section in the spaces provided after*

23. (a) Describe the preparations one would make before the arrival of day old chicks and how the chicks should be cared for the first two days. (12mks)  
(b) Describe the breeding practices carried out in sheep management. (8mks)
