……………………………………
13. **Identify three** dangers of weaning the baby when it is too late (3mks)

14. **Give two** reasons why common salt is iodized (3mks)

15. **State four** disadvantages of using charcoal when cooking. (2mks)

**SECTION B  60 MARKS.**

16. (a) **State four** limitations of wool as a fabric. (4mks)
    (b) **Mention four** preparations to make on a fabric before cutting. (4mks)
    (c) **Describe** how to make a run and fell seam on the side of a cotton blouse. (9mks)
    (d) **Outline** the points to consider when planning meals for a vegetarian. (3mks)

17. (a) With the aid of diagrams, **describe** the making of gathers before attaching on a waistband. (7mks)
    b) **State four** ways on how to care of a sewing machine. (4mks)
    c) **Explain five** factors to consider when making a budget. (5mks)
    d) **Explain four** advantages of breast feeding a baby (4mks)

18. a) **Explain** the processes in laundry work (3mks)
    b) **Mention four** reasons for using curtains in the home (4mks)
c) **State four** functions of tucks in garment construction  
   (4mks)

d) **Describe a procedure of laundering a loose coloured cotton shirt / blouse stained**  
   with pen ink  
   (9mks)

19. a) **Explain** points to consider when choosing flowers for flower arrangement  
   (5mks)

b) **Describe** a procedure of cleaning a wooden polished table surface  
   (7mks)

c) **List four** ways of enhancing personal appearance  
   (4mks)

d) **Explain four** ways of encouraging a child to play  
   (4mks)
A pattern of a girls’ blouse is provided. You are advised to study the sketches, instructions and the layout carefully before you begin the test.

**MATERIALS PROVIDED**

1. Pattern pieces
   A- blouse front
   B- blouse back
   C- sleeve
   D- collar
   E- pocket
2. List weight plain cotton fabric 75cm x 100cm.
3. Sewing cotton thread to match the fabric
4. One large envelope (A₄ size)
5. 7 zip

**THE TEST**

Using the materials provided, cut out and make up the LEFT HALF of the blouse to show the following processes.

   a) Working the under-arm dart
   b) The joining of the shoulder seam using Double – stitched seam
   c) The joining of the side seam using open seam.
   d) The joining of the underarm seam using plain neatened seam
   e) The neatening of the raw edge of the front facing.
   f) Preparation of the interfaced collar and fixing to the neckline. Neaten the collar using the facing
   g) The preparation of sleeve and attaching to the arm hole
   h) The working and preparation of patch pocket
   i) Slip hemming half of the sleeve edge.
   j) Fixing of zip using concealed method.
BOMET DISTRICT MOCK EXAMINATION
Kenya Certificate of Secondary Education (KCSE) 2008

PLANNING SESSION: 30 MINUTES
PRACTICAL TEST SESSION: 1 HOUR 15 MINUTES

INSTRUCTION TO CANDIDATES
1) Read the test carefully
2) Write your name and index number on every sheet of paper used
3) Text books and recipes may be used during planning session as reference materials
4) You will be expected to keep to your order of work during the practical session
5) You are allowed to take away ONLY your reference materials at the end of the planning session
6) Your are NOT allowed to bring additional notes to the practical session.

THE TEST

Your sister-in-law is arriving home from Nairobi in preparation to attend her son’s visiting day, who is in a boarding school. Using the ingredients listed below, prepare, cook and present a lunch meal to be eaten during the visiting day, include a nutritious drink.

- Rice/wheat flour
- Fruit in season
- Ndengu/beef
- Leafy vegetables
- Tomatoes
- Spring onions
- Capsicum/carrots
- Fresh milk
- Tea leaves
- Sugar
- Salt
- Fat/oil

PLANNING SESSION 30 MINUTES

Use separate sheet of paper for each task listed below and use carbon paper to make duplicate copies then proceed as follows

1. Identify the dishes, then write down their recipes
2. Write down your order of work
3. Make a list of the foodstuff and equipment you will require.
INSTRUCTIONS TO CANDIDATES

- Write your name and index number in the space provided.
- This paper consists of three sections A, B and C.
- Answer ALL the questions from Section C.
- Answers to ALL questions must be written in this booklet.

This paper consists of 8 printed pages.
Candidates should check the question paper to ensure that all the
Pages are printed as indicated and no questions are missing.
SECTION A (40 Marks)
Answer ALL the questions in this section in the spaces provided.

1. Give two reasons for keeping the toe nails short. (2 mks)

2. State two desirable effects of natural enzymes of fresh food. (2 mks)

3. During your practical on pastry making, you realized that pastry was flaky. Suggest two possible causes for this. (2 mks)

4. Give two reasons why aluminium is widely used in making kitchen equipment. (2 mks)

5. What is the importance of pectin in jam – making (1 mk)

6. Identify two problems that may be encountered when planning meal for vegetarians. (2 mks)

7. State four qualities of a well cooked cake. (2 mks)
8. State three symptoms exhibited by someone who is calcium deficient? (3 mks)

9. State two types of accidents that can cause fractures. (2 mks)

10. What do you understand by the term miscarriage. (1 mk)

11. Suggest a weaning dish (multi – mix) for a six month old child. (2 mks)

12. Why is spiritual intervention necessary when taking care of the sick. (1 mk)

13. Give two importance of appreciating every good action a child does with complements such as “well done”. (2 mks)

14. Differentiate between chandeliers and rise and fall fitments. (2 mks)

15. State two advantages of building your own house. (2 mks)
16. Give four reasons why electricity is considered the best type of artificial light. (2 mks)

17. Identify two practices that would help prevent loss of colour during laundry. (2 mks)

18. Suggest three dietary measures in the control of gouts. (3 mks)

19. Mention two major objectives of advertising. (2 mks)

20. Give two types of needles and their uses. (2 mks)
SECTION B (20 Marks)

Answer this question in the spaces provided at the end of Section C.

21. Your school is organizing for a P.T.A. – AGM and you are required to carry out cleaning in preparation.
   a) Describe how you would clean your wooden locker. (8 mks)
   b) Outline the procedure you would follow when laundering on white cotton table cloth. (12 mks)

SECTION C (40 Marks)

Answer any two questions from this section in the spaces provided.

22. a) Discuss four importance of planning for family finances. (8 mks)
b) Explain three disadvantages of hire – purchase as a method of buying. (3 mks)
c) State four pieces of information a consumer may obtain from a product label. (4 mks)
d) State five problems experienced by the consumers today. (5 mks)

23. a) Pockets are important features in garments. They can be used for functional and decorative purposes. Suggest four factors you would consider when choosing a pocket. (4 mks)
b) With the aid of a clearly labelled diagram describe how you would work out a round patch pocket. (12 mks)
c) Discuss four ways by which faced – slit opening would be made decorative. (4 mks)

24. a) Discuss four points to observe when preparing rechauffé dishes. (8 mks)
b) Explain three general rules on pastry making. (6 mks)
c) Give three advantages and three disadvantages of a gas cooker. (6 mks)
A pattern of a boy’s pair of shorts is provided. You are advised to study the sketches, the question paper and the layout before you begin the test.

1. **MATERIALS PROVIDED:**
   - A Shorts front
   - B Shorts back
   - C Waist band
   - D Fly and opening facing
   - E Fly binding.

2. Light weight cotton fabric of 70cm long by 90cm wide.
3. Cotton sewing thread to match the fabric.
4. One large envelope.

**THE TEST**

Using the provided materials cut out and make up the LEFT LEG of the shorts to show the following:

1. The making of the back dart.
2. The facing of the short.
3. The preparation of the fly.
4. The lining of the prepared fly with the attached facing.
5. The neatening of the raw edges of the fly together with the facing using the bias binding.
6. The fixing of the fly in position by top stitching.
7. The joining of the side seam using a plain seam (not open) and neatening half of it.
8. The joining of the inner – leg seam using a neatened open seam.
9. The preparation and attachment of an interfaced waistband.
10. The preparation and slip – hemming of half of the hem (i.e. from side seam to inner-leg only.)

At the end of the examination, firmly sew onto your work, on single fabric a label bearing your name and index number. Remove the needle and pins from your work. Then fold your work carefully and place it in the envelope provided. Do not put scraps of material in the envelope.
PLANNING SESSION: 30 Minutes
PRACTICAL TEST SESSION 1 ¼ Hours

INSTRUCTION TO CANDIDATES
1. Read the test carefully.
2. Write your name and index number on every sheet of paper used.
3. Textbooks and recipes may be used during the planning session, as reference materials.
4. You will be expected to keep to your order of work during the practical session.
5. You are allowed to take away ONLY your reference material at the end of the planning session.
6. You are NOT allowed to bring additional notes to the practical session.

This paper consists of 2 printed pages.
Candidates should check the question paper to ensure that all the Pages are printed as indicated and no questions are missing.

THE TEST

Your cousin is recuperating at home from anaemia. Using the ingredients provided, prepare, cook and serve a two course lunch for two of you on a tray to include a nutritious drink.

Ingredients
- Green grams
- Irish potatoes
- Tomatoes
- Onions
- Fruit in season
- Oil/fat
- Carrots
- Salt
- Dhania
- Margarine
- Milk

PLANNING SESSION 30 Minutes

Use separate sheets of paper for each task listed below and a carbon paper to make duplicate copies. Then proceed as follows.
1. Identify the dishes and write down their recipes.
2. Write down your order of work.
3. Make a list of the food stuffs and equipment you will require.
INSTRUCTIONS TO CANDIDATES

- Write your name and index numbers in the spaces provided above.
- This paper consists of three sections: A, B and C.
- Answer all the questions in the section A and B and only two questions from section C.
- Answers to all questions must be written in this booklet.

This paper consists of 8 printed pages.
Candidates should check the question paper to ensure that all the Pages are printed as indicated and no questions are missing.
SECTION A: 40 Marks

1. Suggest two causes of cracking in ceramic charcoal stove. (2 mks)

2. State 3 factors which influence the choice of a cooking method. (3 mks)

3. Give 2 uses of sugar in a creamed cake mixture. (2 mks)

4. Suggest two reasons why double rows of stitches are used while making a casing. (2 mks)

5. State factors which influence the food scarcity at household level other than poverty. (3 mks)

6. State four rules to consider when repairing garments. (4 mks)
7. State 3 qualities to look for when buying a saucepan. (3 mks)

8. State 3 properties of polyester that makes it suitable for making loose chair covers. (3 mks)

9. State four points to consider when choosing sleeves. (4 mks)

10. Suggest 3 points one must take into consideration when making pastries. (3 mks)

11. Explain how a burning test would distinguish cotton from wool. (2 mks)
12. Explain 2 ways in which blending viscose with polyest would modify the characteristics of the viscose fabric. (2 mks)

13. Give two ways of using a crossway strip in garment construction. (2 mks)

14. Suggest the importance of proper drainage in the house. (2 mks)

15. Why is it important to educate a consumer? (3 mks)

SECTION B: 20 Marks

16. You are taking care of the home while your mother is away visiting.
   a) With reasons, explain how you would launder a white tea towel with an old tea stain. (8 mks)
b) Describe how to wash a neglected aluminium pan. (4 mks)

c) Giving reasons, describe how to weekly clean the kitchen floor made of terrazzo. (8 mks)
SECTION C: 40 Marks

17. a) State four qualities of a well made collar. (4 mks)
    b) Explain three factors that determine the setting of a table. (6 mks)
    c) By use of a simple but well labeled diagram, describe the preparation of the sleeve in readiness for attaching. (5 mks)
    d) State any five rights of a consumer. (5 mks)

18. a) Explain four disadvantages of using convenient foods. (8 mks)
    b) Explain four consideration to make when furnishing a living / a sitting room. (8 mks)
    c) State four points to observe when fixing fasteners onto a garment. (4 mks)

19. a) Explain 5 factors that influence the cleaning frequency of a house. (10 mks)
    b) Discuss the use of charcoal as a fuel. (10 mks)

HOME SCIENCE
Paper 2
PRACTICAL – Speed Test
July / August – 2008
Time: 2 ½ Hours

BUTERE DISTRICTS MOCK EXAMINATION - 2008
Kenya Certificate of Secondary Education (K.C.S.E)

441/2

HOME SCIENCE
Paper 2
PRACTICAL – Speed Test
July / August – 2008
Time: 2 ½ Hours
A pattern of a blouse bodice is provided. You are advised to study the question paper, the sketches and the layout before you begin the test.

MATERIALS PROVIDED
1. Pattern pieces for the dress
   A Front bodice
   B Back bodice low part
   C Sleeve
   D Tie collar
   E Yoke
   F Sleeve facing
2. Plain light weight cotton fabric 67cm by 91cm wide.
3. Sewing thread to match the fabric.

THE TEST
Using the materials provided, cut out and make up the RIGHT HALF of the blouse bodice to show the following;
   a) The attaching of the back yoke bodice using an overlaid seam/lapped seam without neatening it.
   b) The working of the waist dart.
   c) The neatening of the raw edge of front facing.
   d) The joining of the shoulder seam using a neatened open seam.
   e) The attaching of the collar including the preparation of the ties collar extension.
   f) The joining of the side seam using French seam.
   g) The preparation of the sleeve using a French seam for the under arm seam.
   h) The preparation and attaching of sleeve facing to the right of the garment.
   i) The fixing of the free edge of the facing to the sleeve.
   j) The attaching of the sleeve to the bodice and neatening half of the armhole seam.
   k) The working of the top button hole only.

At the end of the examination, firmly sew on your work on a single fabric, a label having your name and index number. Remove the needles and pins from your work. Then fold your work carefully and place it in the envelope provided. Don’t put scraps of materials in the envelope.
INSTRUCTIONS TO CANDIDATES

- Read the test carefully.
- Write your name and index number no. on every sheet of paper used.
- Textbooks and recipes may be used during the planning session as reference materials.
- You will be expected to keep to your order of work during the practical sessions.
- You are allowed to take away only your reference materials at the end of the planning session.
- You are not allowed to bring additional notes to the practical session.
THE TEST

You are left to take care of the house and your elder sister who has just delivered her first born. Using the ingredients listed below prepare, cook and present a one course meal and a drink for you and your sister.

Ingredients
Rice, wheat flour, spaghetti.
Beef / liver
Onions
Fat / oil
Salt
Sugar
Spices
Tomatoes
Tea / coffee / cocoa
Carrots

PLANNING SESSION: 30 Minutes

Use separate sheets of paper for each task listed below and use carbon paper to make duplicate copies then proceed as follows;

1. Identify the beverage and the one course meal, and then write down their recipes.
2. Write down your order of work.
3. Make a list of the food stuffs and equipment you will require.
INSTRUCTIONS TO CANDIDATES

- This paper consists of three sections A, B and C.
- Answer all the questions in section A and B and any two questions from section C.
- Answer to these questions must be written in the booklet provided.

Turn Over
Section A (50 Marks)
Answer all the questions in this section.

1. State two methods of cooking using dry heat. (2 mks)
2. State four desirable qualities of cotton fibre. (4 mks)
3. Mention two methods of purifying water. (2 mks)
4. Give two examples of conspicuous seams. (2 mks)
5. State two reasons for drying white cotton in the sun. (2 mks)
6. Give two advantages of good lighting in the kitchen. (2 mks)
7. Give two reasons for attending post – natal clinic. (2 mks)
8. Give three reasons for preserving food. (3 mks)
9. Mention two importance of consumer protection. (2 mks)
10. Mention three functions of teeth. (3 mks)
11. State three uses of eggs in flour mixtures. (3 mks)
12. State three problems related to weaning. (3 mks)
13. Mention four cloth storage facilities. (4 mks)
14. State three factors to consider when choosing shoes. (3 mks)
15. State three factors that may make a baby cry. (3 mks)
16. Name two types of button holes. (2 mks)
17. Give two examples of self – neatening seams. (2 mks)
18. Name three nutritional disorders associated with lifestyles. (3 mks)
19. Classify permanent stitches. (3 mks)

SECON B (20 Marks)
Compulsory

20. You have been assigned by your mother to assist in carrying out some household chores.
Giving reasons, describe how you would;
   a) Thoroughly clean a refrigerator. (12 mks)
   b) Wash an acrylic sweater. (8 mks)
SECION C (50 Marks)

Answer any TWO questions from this section.

21.  a) Explain the procedure of making an open seam neatened using binding. Use diagrams to show your work. (10 mks)
    b) Explain five points to observe when using a sewing machine. (10 mks)
    c) Fill in the missing information. (5 mks)

22.  a) Explain five causes of malnutrition. (10 mks)
    b) Discuss five advantages of convenience foods. (10 mks)
    c) State five advantages of supplementary feeding to a baby. (5 mks)

23.  a) Explain five advantages of breastfeeding. (10 mks)
    b) Discuss five factors that can affect a budget. (10 mks)
    c) Discuss five general points to observe when drying meat. (5 mks)
A pattern for a girl’s blouse is provided. You are advised to study to sketch instructions and the layout carefully before you begin the test.

Materials provided
1. Pattern pieces:
   A  Blouse front with facing
   B  Blouse back bodice
   C  Back yoke
   D  Collar
   E  Neck facing
   NB: Interfacing of the collar should be cut from the same fabric using the collar pattern piece.
2. Light weight plain cotton fabric 65cm long by 90cm wide.
3. Sewing thread to match the fabric.
4. Button
5. One large envelope.

THE TEST
Using the materials provided, cut out and make up the RIGHT HALF of the blouse to show the following processes.

   a) Preparing the inverted pleat.
   b) Attaching the yoke on to the Back bodice using overlaid seam.
   c) Making a double stitch (machine fell) seam on the shoulder.
   d) Making of the side dart and side seam using open seam.
   e) Joining facings
   f) Neatening of the facings
   g) Preparation of the collar using facings
   j) Making of the buttonhole by hand
   i) Attaching the button

At the end of the examination, firmly sew onto your work, on a single fabric, a label bearing your name and index number. Remove the needle and pins on your work, then fold your work neatly and place it in the envelope provided. Do not put scraps of fabric in the envelope.

SECTION A (40marks)

Answer All the questions in this section in the spaces provided

1. Explain the role of sweat glands in soiling of the body (2mks)

2. Identify any four main causes of accidents in the home (2mks)

3. State any two characteristics of clothes made of fabric that develop static electricity (2mks)

4. Explain how living a relatively sedentary lifestyle can lead to obesity (1mks)

5. State two qualities that make the run and fell (machine fell) seam suitable for making a night dress (2mks)
6. **Explain two precautionary measures to be taken when cleaning a painted wall (2mks)**

   .................................................................................................................................

   .................................................................................................................................

   .................................................................................................................................

   .................................................................................................................................

7. **Give two reasons why low heeled shoes are recommended for a pregnant mother (2mks)**

   .................................................................................................................................

   .................................................................................................................................

   .................................................................................................................................

   .................................................................................................................................

8. **Give two factors that will influence the choice of fat to be used in flour mixtures (2mks)**

   .................................................................................................................................

   .................................................................................................................................

   .................................................................................................................................

   .................................................................................................................................

9. **State the two main roles of garnishing in food presentation (2mks)**

   .................................................................................................................................

   .................................................................................................................................

   .................................................................................................................................

   .................................................................................................................................

10. **Identify linen using burning test (3mks)**

    .................................................................................................................................

    .................................................................................................................................

    .................................................................................................................................

    .................................................................................................................................

11. **Give reasons for using the following processes during garment construction (2mks)**

    (a) Basting ..................................................................................................................

    (b) Trimming ..............................................................................................................

(c) Clean her tooth brush

(d) State five factors to consider when packing meals

(c) State five factors that affect individual nutrient requirement
(c) State **six** ways of ensuring that a sleeve is well set  

(d) Suggest **four** advantages of blending wool with nylon  

24. **(a)** Giving **four** examples explain why some nutritional disorders are referred to as lifestyle related  

(b) Discuss **five** precautionary measures to take when using frying as a method of Cooking

(d) Explain **five** ways in which a consumer can protect herself from being exploited

25. (a) With the aid of diagrams explain the procedure of working out wide tucks (5mks)

(b) State **five** factors to consider when choosing fastenings (5mks)
SECTION C (40 marks)

Answer any two questions in the answer sheets provided

26. (a) State five precautions to take when using kerosene as a fuel (5mks)

(b) Discuss five points to consider when selecting lighting fixtures (5mks)

(c) State five qualities of a well constructed piece of furniture (5mks)
This paper consists of 3 printed pages
candidates should check the question paper
to ensure that all the pages are printed as indicated and no questions are missing.
A pattern of a child's dress is provided. You are advised to study the sketches instructions and the layout before you begin the test.

MATERIALS PROVIDED
1. **Pattern pieces:**
   A  Skirt front
   B  Skirt back
   C  front yoke
   D  Back yoke
   E  Collar
   F  Front neck facing
   G  Back neck facing
   H  Frill

2. Plain light weight cotton 90cm wide by 70cm long
3. Sewing cotton thread to match the fabric
4. One large envelope

**THE TEST**

Using the materials provided, cut and make up the LEFT HALF of a child's dress to show the following processes:

(a) The joining of the front yoke to the front skirt and back skirt using unneatened overlaid seam (ease in the skirts to the yokes)
(b) The making of the shoulder seam using an open seam
(c) The making of the side seam using a French seam.
(d) The joining of the front and back facings and neatening of the free edge
(e) The preparation of the collar
(f) The attachment of the collar
(g) The preparation of the frill and its attachment using an open seam. Neaten half the seam only
(h) Making a loop for a 1cm button

**Omit** hem management

At the end of the examination, firmly sew onto your work, on a single fabric a label bearing your name and index number. Remove the needle and pins from your work, then fold your work neatly and place it in the envelop provided.

**Do not** put scraps of fabric in the envelop
INSTRUCTIONS TO CANDIDATES

Read the test carefully

- Write your name and index number on every sheet of paper used
- Textbooks and recipes may be used during the planning session as reference materials
- You will be expected to keep to your 'order of work during the practical session
- You are allowed to take away only your reference materials at the end of the planning session
- You are not allowed to bring notes to the practical session
- This paper consists of 2 printed pages
- Candidates should check the question paper to ascertain that all the pages are printed as indicated and no questions are missing
Read the test carefully

THE TEST

Your cousin is visiting you over the weekend for an overnight stay
Using the ingredients listed below prepare, cook and serve a complete breakfast for the
two of you

Ingredients
Margarine Tomatoes
Eggs
Fruits in season
Sugar
Finger millet/sorghum flour
Fat/oil
Salt
Tea leaves
Milk
Bread

PLANNING SESSION

Use separate sheets of paper for each task listed below and use carbon paper to make duplicate
copies then proceed as follows:-

1. Identify the breakfast and then write down the recipes
2. Write down your order of work
3. Make a list of the foodstuffs and equipment you will require
INSTRUCTIONS TO CANDIDATES

- Write your name and index number in the space provided above.
- This paper consists of three sections A B and C.
- Answer all the questions in section A and B and any two questions from section C.

For Examiner’s Use Only

SECTION A (40 Marks)

Answer ALL the questions in this section in the Spaces provided.

1. State the importance of sebaceous glands in relation to a healthy skin. (1mk)

2. State two qualities that make aluminium popular for household utensils. (2mks)

3. Give a reason why nylon is unsuitable for sports wear. (1mk)

4. Mention two Uses of Dhania (coriander) leaves in cookery. (2mks)

5. Mention two advantages of blending cotton and nylon fibers. (2mks)

6. State any two reasons why a child’s growth monitoring is important. (2mks)

7. List four laundry processes that are harmful to woolen fibres and in each case state the harm caused. (2mks)
8. **State three** ways of providing variety in meal planning and management. \( (3\text{mks}) \)

9. **State two** factors to consider when choosing where to buy vegetables. \( (2\text{mks}) \)

10. **Give two** qualities of a good advertisement. \( (2\text{mks}) \)

11. **Explain three** ways of economising fuel when using electricity for cooking. \( (3\text{mks}) \)

12. **Explain two** reasons for using interfacing during garment construction. \( (2\text{mks}) \)

13. **Identify three** methods of finishing the edges of the sleeves other than using a cuff. \( (3\text{mks}) \)

14. **State three** reasons for labeling products in a factory. \( (3\text{mks}) \)
15. **State two** precautions to be taken to prevent bed sores when taking care of the sick person at home. (2mks)

16. **List two** uses of lamp shades. (2mks)

17. **State two** factors to consider when planning lighting for various rooms in the house. (2mks)

18. **Differentiate** between advancing and receding colors. (2mks)

19. **Give two** reasons why most women in the rural areas are less groomed. (2mks)
SECTION B (20 Marks)

20. (a) Describe the correct procedure of laundering a nylon dress. (8 mks)
(b) Describe the correct procedure for cleaning white canvas shoes without shoelaces. (7 mks)
(c) Give the correct procedure of cleaning two aluminium cups. (5 mks)

SECTION C (40 Marks)

This section consists of three questions Answer any two questions.

21. (a) Mention two uses of butter in the home. (2 mks)
(b) Identify four major nutrients found in butter. (4 mks)
(c) (i) Describe four changes that takes place when heating butter. (4 mks)
(ii) Name four main groups of fats giving an example for each (4 mks)
(d) Explain three considerations to make when selecting a storage facility for butter. (6 mks)

22. (a) Outline four tests undertaken at the clinic to an expectant mother in the first month of pregnancy. (4 mks)
(b) Describe two supplementary foods for a baby. (2 mks)
(c) Explain two benefits of supplementary food. (4 mks)
(d) (i) Explain four reasons why a mother may be unable to breastfeed. (8 mks)
(ii) Explain four points on care of play items. (2 mks)

23. (a) Explain four properties of viscose rayon which are undesirable. (8 mks)
(b) Suggest four features that can be used to finish a nightdress decoratively. (4 mks)
(c) Give three reasons for ironing a nightdress during construction. (3 mks)
(d) Explain five desirable qualities of an iron box. (5 mks)
Instructions to Candidates

This paper consists of 3 printed pages candidates should check the question paper to ensure that all the pages are printed as indicated and no questions are missing.
A pattern of a Girls skirt is provided.
You are advised to study the sketches, the question paper and the layout carefully before you begin the test.

**Material provided**

1. Pattern pieces
   A - Skirt pieces
   B - Skirt Back
   C - Front yoke
   D - Pocket
   E - Back waistband
   F - Front waistband

   NB: Interfacings front and back waistband are cut with pieces E and F from the same fabric

2. Light weight cotton fabric of 60cm long by 90cm wide.

3. Sewing threads to match the fabric.

4. One large envelop.

**THE TEST**

Using the materials provided cut out, and make up the RIGHT HALF of the skirt to show the following processes.

(a) The making of the back dart

(b) The preparation of the box pleat on the front piece

(c) Attachment of yoke to the skirt front piece using a neatened overlaid seam

(d) The preparation and attachment of patch pocket

(e) The making of a neatened open seam at the side.

(f) The preparation of the interfaced front and back waistband

(g) The attachment of waistband to the skirt finishing the front waistband by hemming and the back one by tacking.

(h) The topstitching of the waistband.

(i) The preparation of skirt hem and hemming the back skirt only.

At the end of the examination firmly sew a label on single fabric bearing your name and index number. Remove the needles and pins from your work then fold your work carefully and place it in the envelope provided. **Do not put scraps of fabric in the envelope.**

HOME SCIENCE
PAPER 3
HOME MANAGEMENT
WITH FOOD AND NUTRITION
JULY / AUGUST 2008

PLANNING SESSION 30 MINUTES
PRACTICAL TEST SESSION 1 HOUR 15 MINUTES

INSTRUCTION TO CANDIDATES

❖ Read the test carefully
❖ Write your name and index number on every sheet of paper used.
❖ Text books and Recipe books may be used during the planning session as reference materials
❖ You will be expected to keep to your order of work during the practical session
❖ You are allowed to take away ONLY your reference materials at the end of the planning session.
❖ You are not allowed to bring additional notes to the practical session

You have been left at home to take care of your lactating mother using the ingredients listed below prepare, cook and present a one course lunch for you and your mother. Include a refreshing drink.

Ingredients.

• Rice / spaghetti
• Fruit in season
PLANNING SESSION: 30 MINUTES

Use separate sheets of paper for each task listed below and use carbon paper to make duplicate copies then proceed as follows.

1. Identify the dishes and beverage and write down their recipes.
2. Write down your order of work.
3. Make a list of the food stuffs and equipment you will require.
INSTRUCTIONS TO CANDIDATES

❖ This paper consists of three sections A, B and C
❖ All the questions in section A and B are compulsory.
❖ Answer any other two questions in section C.
❖ Answers to all questions must be written in the answer booklet provided.

SECTION A (40 Marks)

Answer All questions in this section in the spaces provided.

1. Briefly explain what is meant by home science as an ‘applied and integrated science’ (2mks)
2. State any two dangers of poor sanitation in any given home. (2mks)
3. Explain three disadvantages associated with canned food (3mks)
4. **State two** points to observe when making coating (fritter) batter so as to ensure good results. (2mks)

5. **State any two** precautions to take when cleaning a polished wooden sugar dish. (2mks)

6. (a) **Explain** the term réchauffé cookery (1mk)
   (b) **State any two** limitations of using the above mentioned foods (2mks)

7. **State two** points to consider when planning meals for an H.I.V patient who is bedridden. (2mks)

8. **Suggest two** possible causes of a heavy closed texture in creamed cake mixtures. (2mks)

9. **State any two** notable changes in the lifestyle of people that are likely to affect their health. (2mks)

10. **State any three** problems that may be encountered when weaning a child. (2mks)

11. **Explain** the following terms (2mks)
   (a) Buffing
   (b) Special cleaning

12. **Give two** reasons for blending fibres during construction of fabrics. (2mks)

13. The addition of bicarbonate of soda to green vegetables is not recommended, with this in mind, **state two** possible ways of preserving the colour and nutrients of green vegetables during cooking. (2mks)

14. **Explain** the effect of low haemoglobin in the body. (2mks)

15. **State two** factors that make cotton a suitable fabric for hotels bed linen. (2mks)

16. **Give any two** advantages of knitted fabrics. (2mks)

17. **Define** the following terms as used on clothing construction (3mks)
   (a) Edge stitching
   (b) Under stitching
   (c) Top stitching

**SECTION B. (20 MARKS) COMPULSORY**

*Answer this question in the spaces provided at the end of Section C.*

18. Your mother has asked you to assist carry out thorough cleaning in the home over the weekend.
   a. **With reasons,** **outline** the correct procedure of cleaning a hurricane lamp and leave it ready for use. (10mks)
   b. **Give** the correct procedure of washing a white cotton table linen covered with a fresh tea stain. (6mks)
   c. Clearly **explain** how you would clean your mother’s ornamental trophy made of silver. (4mks)

**SECTION C (40 MKS)**

*Answer any two questions from this section in the spaces provided at the end of this section.*
19. (a) **Give any four** points or considerations to remember when choosing style to be used on a child’s garment. (4mks)

(b) **Give three** reasons that have made synthetics and their mixtures more popular for children’s clothes (3mks)

(c) (i) **Mention the two** methods commonly used in repair of clothes. (1mk)

(ii) **State three** factors that determine choice of method to be used for repairing a given garment. (3mks)

(d) (i) **State three** qualities of a well made sleeve. (3mks)

(ii) With use of diagrams, describe how to prepare a sleeve ready for setting into the armhole. (6mks)

20. (a) (i) **State three** reasons for using liquids in flour mixtures. (3mks)

(ii) **Name any four** such liquids that can be useful in preparation of flour mixtures (2mks)

(b) **Suggest two** factors that will determine the way a table is set. (2mks)

(c) **Mention** and discuss the role of any six ingredients used in cake making. (9mks)

(d) (i) **Explain 2** desirable qualities of deep frying fat for cooking doughnuts. (2mks)

(ii) **Explain 2** points to consider when selecting a frying pan for cooking pancakes. (2mks)

21. (a) (i) **State any two** advantages of budgeting (2mks)

(ii) **List** the important steps in budgeting. (2mks)

(b) **Name four** agencies in Kenya that protect the consumer and state their functions respectively. (4mks)

(c) **State four** factors that influence choice of colour when furnishing a room. (4mks)

(d) (i) **Describe** the following common problems in pregnancy varicose veins and pre-eclampsia (2mks)

(ii) **State three** dangers of excess weight gain during pregnancy (3mks)

(iii) **Name two** immunizable diseases that can cause disfigurement. (1mk)
A pattern of a child’s dress is provided. You are advised to study the sketches, instructions and the layout carefully before you begin the test.

**MATERIALS PROVIDED**

1. Pattern pieces for the dress
A - Dress front
B - Dress Back
C - pocket
D - Front Facing
E - Back Facing

2. Plain light weight cotton fabric 55cm long by 90 cm wide
3. Sewing thread to match the fabric
4. One large envelope

**THE TEST**

Using materials provided, cut out and make the **LEFT HALF** of a child’s dress to show the following

(a) Working of a shoulder dart
(b) The joining of the shoulder seam using a French seam
(c) The joining of the side seam using a plain seam
(d) The preparation of the patch pocket
(e) Fixing of the patch pocket on to the garment
(f) The joining of the front and the back facings at the shoulder. Neatening the outer edge of the facing.
(g) Attaching of the facing at the neckline of the dress. Understitching the seams
(h) Neatening the armhole using an appropriate method.

At the end of the examination, firmly sew onto your work, on a single fabric a label bearing your name and index number. Remove the needle and pins from your work, then fold your work neatly and place it in the envelope provided. Do not put scraps of fabric in the envelope.
PLANNING SESSION: 30 MIN
PRACTICAL TEST SESSION: 1 ¼ HOURS

INSTRUCTIONS TO CANDIDATES
1. Read the test carefully
2. Write your name and index no. on every sheet of paper used.
3. Text books and recipes maybe used during the planning session as reference materials.
4. You will be expected to keep to your order of work during the practical session.
5. You are only allowed to take your reference materials at the end of the planning session.
6. You are not allowed to bring additional notes to the practical session

THE TEST

Your parents are away and have left you at home with a 1 ½ year old child and your uncle who is has visited you and is a manual worker.

Using the ingredients listed below prepare, cook and serve a one course lunch for the two of you and a suitable dish for the child. Include a fruit of your choice.
Ingredients

- Maize flour/wheat flour/millet flour
- Irish potatoes/green bananas
- Vegetables in season
- Fruits in season
- Beef/poultry/eggs
- Salt
- Spices
- Onions
- Tomatoes
- Carrots
- Dhania
- Oil
- Milk
- Margarine

PLANNING SESSION: 30 MINUTES

- Use separate sheets of paper for each task listed below and use carbon paper to make duplicate copies then proceed as follows
  1. Identify the dishes and write down their recipes
  2. Write down your order of work
  3. Make a list of the foodstuffs and equipment you will require.
Instructions to candidates

- Write your name and index number in the spaces provided above.
- This paper consists of THREE sections A B and C.
- Answer all the questions in sections A and B and any TWO questions in section C

© 2008 MOLO DISTRICT MOCK EXAMINATION
SECTION A (40 MARKS)

Answer all the questions in this section in the spaces provided.

1. **List down two** sanitary practices one needs to acquire (2mks)
   (a) ................................................................. .................................................................
   (b) ................................................................. .................................................................

2. **Give two** disadvantages of preserving food. (1mk)
   (a) ................................................................. .................................................................
   (b) ................................................................. .................................................................

3. **State one** desirable quality of baking flour. (1mk)
   ................................................................. .................................................................

4. **Suggest two** precautions one should take to ensure that shoes last long. (2mks)
   (a) ................................................................. .................................................................
   (b) ................................................................. .................................................................

5. **State two** precautions to take in the storage of leftover foods. (2mks)
   (a) ................................................................. .................................................................
   (b) ................................................................. .................................................................

6. **Identify two** ingredients that should be avoided when planning meals for a person with stomach ulcers. (2mks)
   (a) ................................................................. .................................................................
   (b) ................................................................. .................................................................

7. **Mention two** uses of fruits in cake making. (2mks)
   (a) ................................................................. .................................................................
   (b) ................................................................. .................................................................

8. **Give four** factors that determine an individual’s nutrient requirement. (2mks)
   (a) ................................................................. .................................................................
   (b) ................................................................. .................................................................
   (c) ................................................................. .................................................................
   (d) ................................................................. .................................................................
9. Apart from nutritional anaemia give two other causes of anaemia.  
(a) .........................................................................................................................
(b) .........................................................................................................................

10. When caring for the sick at home, it is important to take care of their emotional needs to  
enhance the healing process. Mention four other needs that should be taken care of.  
(a) .........................................................................................................................
(b) .........................................................................................................................
(c) .........................................................................................................................
(d) .........................................................................................................................

11. Give the other name for vitamin B₁.  
.........................................................................................................................

12. State two discomforts which a nursing mother may experience in her breasts.  
(a) .........................................................................................................................
(b) .........................................................................................................................

13. Suggest two disadvantages of bungalows.  
(a) .........................................................................................................................
(b) .........................................................................................................................

(a) .........................................................................................................................
(b) .........................................................................................................................

15. Define contrasting colours.  
.........................................................................................................................

16. Differentiate synthetics and regenerated fibers.  
.........................................................................................................................
17. **Give two** reasons for soaking clothes. (2mks)
(a) ...........................................................................................................................
(b) ...........................................................................................................................

18. **State one** advantage and one disadvantage of budgeting. (2mks)

Advantage.
...........................................................................................................................

Disadvantage
...........................................................................................................................

19. **Explain two** uses of the term “trimming” in needlework. (2mks)
(a) ...........................................................................................................................
(b) ...........................................................................................................................

20. **Define** “basting” as used in needlework. (1mk)
...........................................................................................................................

21. **Differentiate** “openings” and “fastenings“ (2mks)
...........................................................................................................................

22. **Stitches** are classified into. (2mks)
...........................................................................................................................

23. **Give the first four** steps taken during management of nose bleeding. (2mks)
(a) ...........................................................................................................................
(b) ...........................................................................................................................
(c) ...........................................................................................................................
(d) ...........................................................................................................................
SECTION B (COMPULSORY) (20 MARKS)

Answer this question in the spaces provided at the end of section C.

24. You are assisting your mother with household chores. With reasons,

a) Explain how to launder a white towel used by your sick brother. (11mks)

b) Describe the method of cleaning a plastic plate. (4mks)

c) Explain how to sponge your polyester tie. (5mks)

SECTION C (40 MARKS)

Answer any two questions from this section in the spaces provided at the end of this Section.

25. (a) With the aid of clearly labelled diagrams explain how to make a bound opening. (7mks)

(b) Explain five factors that determine the choice of a seam to use on a garment. (10mks)

(c) State three factors that determine the repair method to be used on garments. (3mks)

26. (a) Discuss four factors that affect normal foetal development. (8mks)

(b) Explain four points to consider in the choice of colour in a room. (8mks)

(c) Explain two advantages of proper ventilation in a house. (4mks)

27. (a) Explain five factors which have led to the growing use of convenience foods. (10mks)

(b) With the aid of clearly labelled diagrams explain how to work a lapped seam. (10mks)
MOLO DISTRICT Mock Examination

Kenya Certificate of Secondary Education (KCSE) 2008
A pattern of a girl’s skirt is provided. You are advised to study the sketches the question paper and the layout carefully before you begin the test.

**MATERIALS PROVIDED**

Pattern pieces

A - Skirt front  
B - Skirt back  
C - Pocket  
D - Waist band  
E - Waist band interfacing.

2. Light weight cotton fabric 65m by 90cm wide.
3. Sewing thread to match the fabric.
4. One large envelope.

**THE TEST**

Using the materials provided cut out and make up the **RIGHT HALF** of the skirt to show the following processes.

(a) The making of the back and front darts.
(b) Attachment of the front pocket piece to the skirt front and back pocket piece to the skirt back.
(c) The making of a neatened open seam at the side above and below the pocket mouth.
(d) The joining of the pocket bag seam (do not neaten.)
(e) The preparation of the interfaced front and back waist band
(f) Attachment of the waist band to the skirt. Finishing the front waist band by tacking and the back by hemming.
(g) Working of the button hole
(h) The preparation of the skirt hem and slip hemming of the front hem.

At the end of the examination firmly sew on to your work on a single fabric a label bearing your name and index number. Remove the needle and pins from your work then fold your work carefully and place it in the envelope provided. Do not put scraps of fabric in the envelope.

SECTION A (40 mks)

Answer all questions in this section in the spaces provided

1. Give two reasons for lining a cake tin 2 mks
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................

2. State two points to consider when buying cabbage 2 mks
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................

3. Name three qualities to consider when choosing fabric for making loose covers 3 mks
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................

4. State four properties that make cotton a versatile fibre 4 mks
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................

5. State two reasons for drying white cottons in the sun 2 mks
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................

6. Mention two advantages of advertising 2 mks
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
7. State two reasons for using trimmings during garment construction  
   2 mks
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................

8. Name one biological and two chemical raising agents  
   3 mks
   i) Biological
      ........................................................................................................................................
      ........................................................................................................................................
      ........................................................................................................................................
   ii) Chemical
      ........................................................................................................................................
      ........................................................................................................................................
      ........................................................................................................................................
      ........................................................................................................................................

9. State two factors that could affect the normal development of a foetus  
   2 mks
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................
   ........................................................................................................................................

10. State three reasons for good ventilation  
    3 mks
    ........................................................................................................................................
    ........................................................................................................................................
    ........................................................................................................................................
    ........................................................................................................................................
    ........................................................................................................................................
    ........................................................................................................................................

11. Name three ways of conserving energy when using gas for cooking  
    3 mks
    ........................................................................................................................................
    ........................................................................................................................................
    ........................................................................................................................................
    ........................................................................................................................................
    ........................................................................................................................................
    ........................................................................................................................................

12. Mention three functions of the skin  
    3 mks
    ........................................................................................................................................
    ........................................................................................................................................
    ........................................................................................................................................
    ........................................................................................................................................
13. State three uses of eggs in flour mixtures

14. Suggest two ways of eliminating fatique during cleaning chores

15. Give two reasons for repairing clothes and house hold articles

16. State two precautions to observe when using a charcoal iron
SECTION B (20 MKS)
COMPULSORY
Answer this section in the spaces provided

17 You are taking care of your aunt who is recovering from an infectious disease

a) Explain how you would launder her white cotton bed sheets 14 mks

b) Describes how you would clean a plastic basin she has used in the room 6 mks
SECTION C (40 MKS)

Answer any two questions from this section in the spaces provided at the end of the section.

18. a) (i) Give three causes of malnutrition 3 mks
       (ii) State seven symptoms of marasmus 7 mks
       (iii) Suggest two ways of managing the disease 2 mks

     b) Explain four reasons that make breast feeding the most preferred method for feeding the baby 8 mks

19. a) Explain four advantages of using commercial patterns 8 mks
     b) State three point to consider when choosing a type of pocket for a garment 3 mks
     c) With the aid of clearly labelled diagrams, describes how to prepare a shirt collar ready for attaching 9 mks

20. a) State five reasons for taking care of the sick at home 5 mks
     b) Giving reasons, discuss five nutritional needs of a patient who has had a major operation 10 mks
     c) State five ways of meeting the physical needs of a patient recuperating at home 5 mks
A pattern of a baby’s skirt is provided.
You are advised to study the sketches, instructions and the layout carefully before you begin the test

MATERIALS PROVIDED
1. Pattern pieces
   A- Skirt front with facing
   B- Shirt back
   C- Sleeve
   D- Collar

2. Light weight plain fabric 60 cm long by 90 cm wide.
3. Sewing thread to match the fabric
4. One large envelope

THE TEST
Using the materials provided cut out and make up the LEFT HALF of the shirt to show the following processes;
   a) Making of a double stitched seam on the shoulder.
   b) Making of the side seam and under and seam using open neated seam
   c) Neatening of the facing
   d) Preparation of the collar
   e) Attachment of the collar
   f) Preparation and attachment of the sleeve.
   g) Management of the hem using hemming stitches (shirt front only)
   h) Making of button hole by hand.

At the end of the examination, firmly sew onto your work on a single fabric, a label bearing your name and index number, remove the needle and pins from your work, then send your work neatly and place it in the envelope provided. Do not put scraps of fabric in the envelop.
INSTRUCTION TO CANDIDATES

- Read the test carefully
- Write your name and index No. on each sheet of paper used
- Text books and recipes may be used during the planning session as reference materials
- You are expected to keep to your order of work during the practical session
- You are allowed to take away only your reference materials at the end of the planning session
- You are not allowed to bring additional notes to the practical session.

This paper consists of 2 printed pages.
Candidates should check the question paper to ascertain that both pages are printed as indicated and no questions are missing
THE TEST

You are taking care of your ten year old sister who is recovering from malaria. Using the ingredients listed below, prepare cook and present.

i) A one course dinner for both of you
ii) A refreshing fruit drink

Ingredient

Meat/ poultry / fish
Rice/ sphagheti/ macaroni
Cabbage / spinach
Passion / pineapple fruit
Sugar
Salt
Tomatoes
Onions
Oil
Capsicums
Dhania
Royco

PLANNING SESSION: 30 MIN

Use separate sheets of paper for each task listed below and use the carbon paper to make duplicate copies then proceed as follow

1. Identify the menu, and then write down the recipes
2. Write down the order of work
3. Make a list of the food stuff and equipment you will require
INSTRUCTIONS TO CANDIDATES

- This paper consists of THREE sections; A, B and C.
- Answer all questions in section A and B and any other TWO in section C.
- Answers to ALL the questions MUST be written in the answer booklet provided.
SECTION A (40 Marks)

Answer all the questions in this section in the answer booklet provided.

1. Why is comfort an important factor to consider during the choice of cosmetics. (2 mks)

2. What observations should you make when cleaning a house. (2 mks)

3. What is the difference between drainage and refuse disposal. (2 mks)

4. State two factors that will influence the efficiency of laundry soap. (2 mks)

5. Give reasons as to why lamp shades are popular in homes today. (2 mks)

6. State ways of preventing insect bites and stings in an environment. (2 mks)
7. What problems are likely to occur to a mother who does not practice child spacing. (2 mks)

8. Which factors influence the rise of prices of commodities on the market. (2 mks)

9. Which precautionary measures should one take to prevent food spoilage during storage. (2 mks)

10. Identify two kitchen equipment that occupy small space and are easy to store. (2 mks)

11. Explain two functions of water in the body. (2 mks)
