PHYSICS - PRACTICAL

TIME: 2 ½ HRS

SUNSHINE SECONDARY SCHOOL 2017.

Instructions

- Write your name, admission number, class and signature in the spaces provided at the top of the page.
- Answer all the questions in the spaces provided in this paper.
- You are supposed to spend the first 15 minutes of the 2 ½ hours allowed for this paper reading the whole paper carefully before your start.
- Marks will be given for clear record of observations actually made, for their suitability and accuracy, and the use made of them.
- Candidates are advised to record their observations as soon as they are made.
- Electronic calculators and mathematical tables may be used.

FOR EXAMINER'S USE ONLY

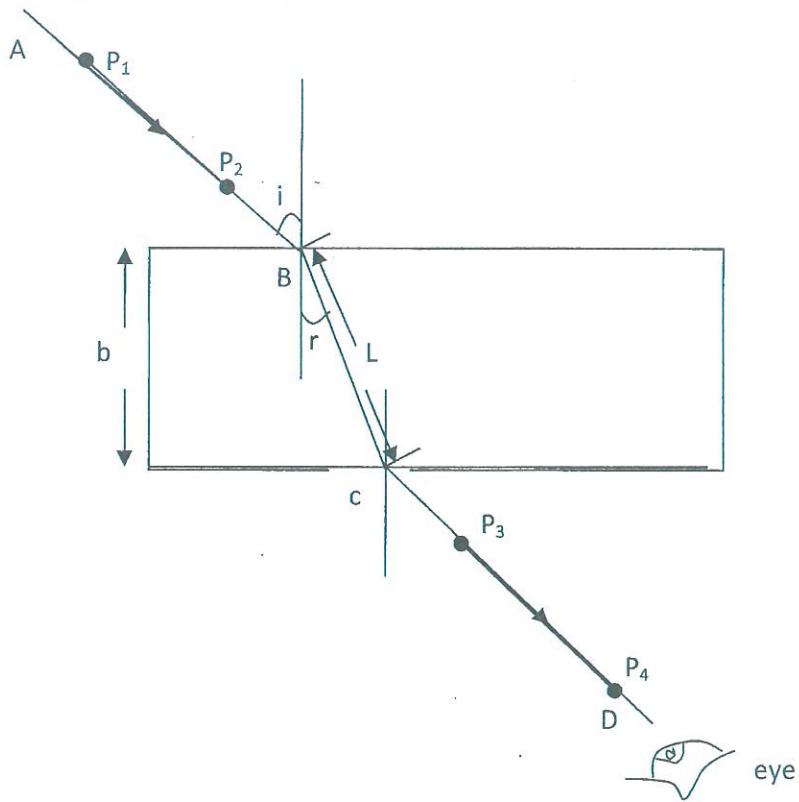

Question(s)	Maximum Score	Candidate's Score
1	20	
2	a) 16	
	b) 4	
TOTAL	40	

This paper consists of 10 printed pages. Candidates are advised to check and to make sure all pages are printed.

- a rectangular glass block
- 4 optical pins
- a soft board
- a plain paper

Proceed as follows:

- (a) Place the glass block on the plain paper with one of the largest face upper most. Trace round the glass block using a pencil as shown below.

- (b) Remove the glass block and construct a normal at B. Construct an incident ray AB of angle of incidence, $i = 20^\circ$.
- (c) Replace the glass block and trace the ray ABCD using the optical pins.

- (d) Remove the glass block and draw the path of the ray ABCD using a pencil. Measure length L and record it in the table below.

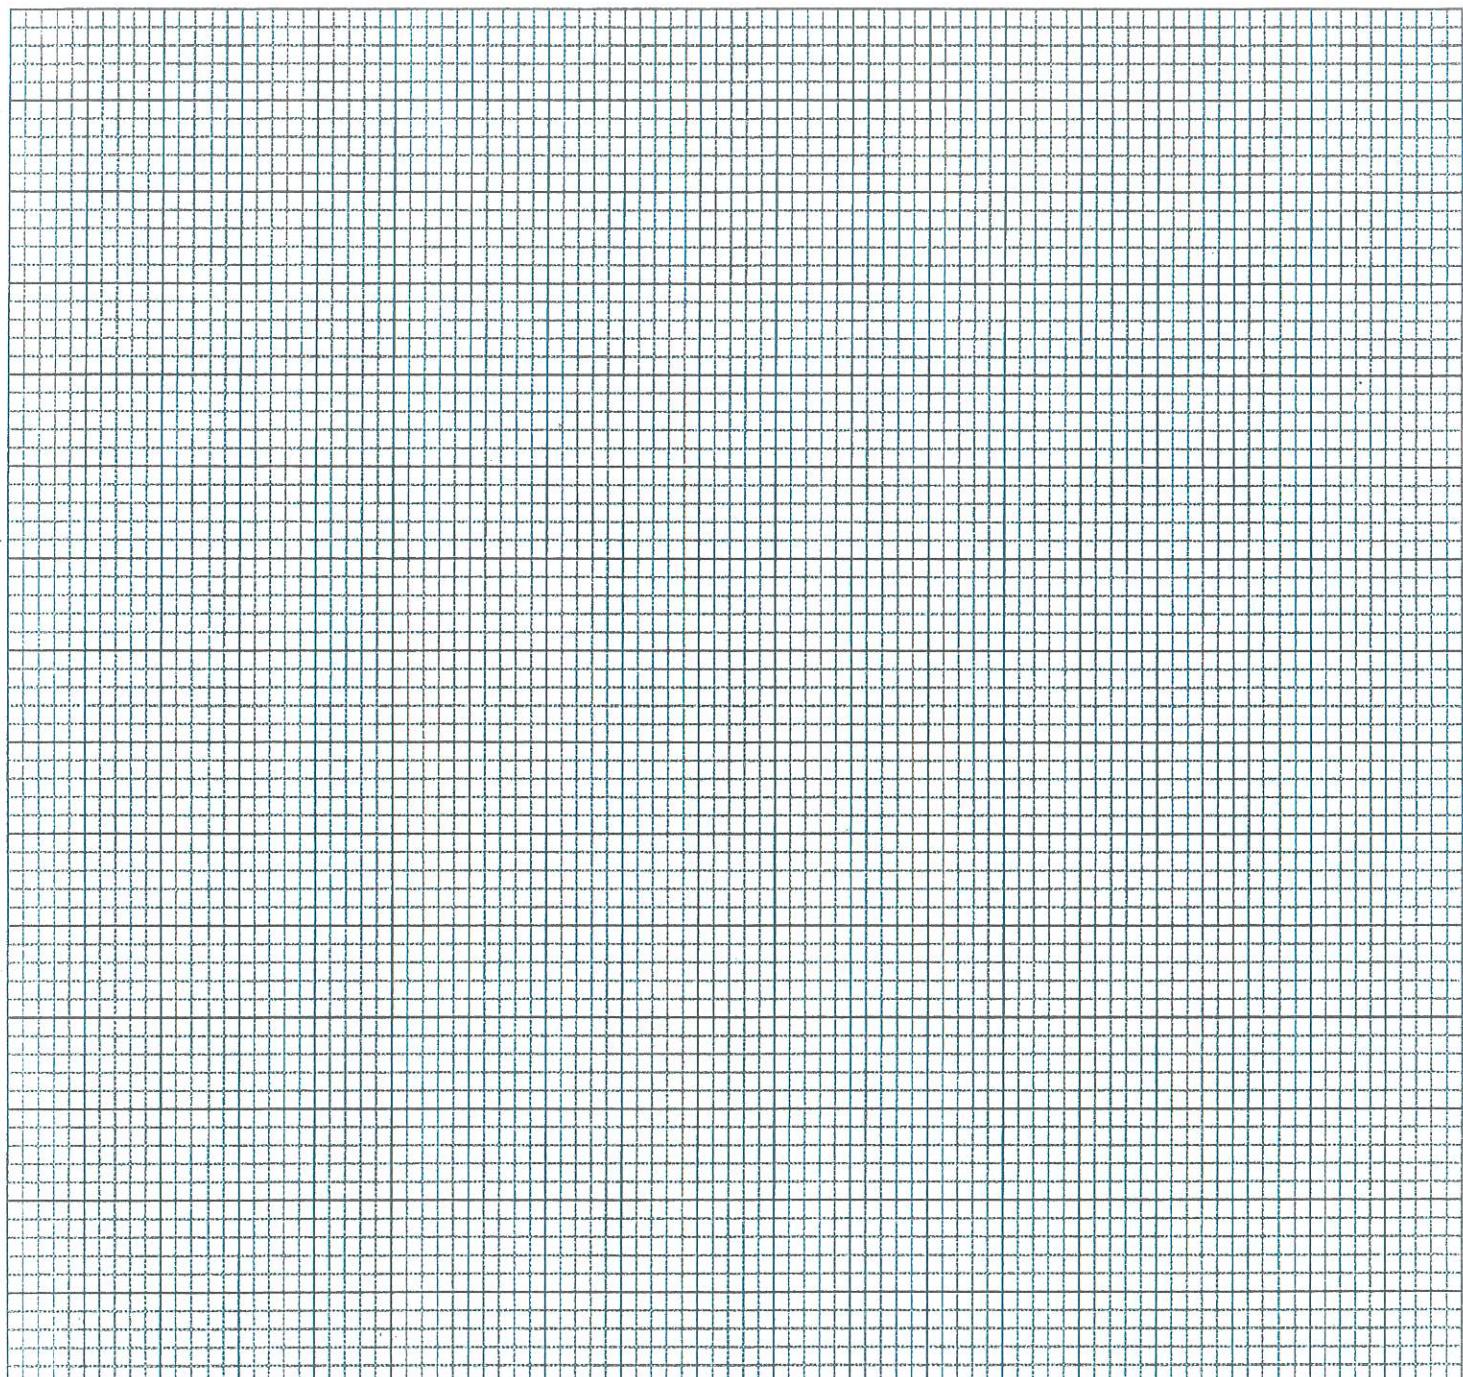

Angle i°	L (cm)	L^2 (cm^2)	$\frac{1}{L^2}$ (cm^{-2})	$\sin^2 i$
20				0.1170
30				0.2500
40				0.4132
50				0.5868
60				0.7500
70				0.8830

(6 marks)

- (e) Repeat the procedure above for the angles of incidence given.

- (f) Calculate the value of L^2 and $\frac{1}{L^2}$; Record in the table.

(g) Plot a graph of $\frac{1}{L^2}$ (y-axis) against $\sin^2 i$. (5 marks)

(h) Calculate the gradient, S.

(3 marks)

.....
.....
.....
.....

Given that the equation of that graph is: $\frac{1}{L^2} = - \frac{1}{n^2 b^2} \cdot \left[\sin^2 i + \frac{1}{b^2} \right]$

(i) Determine the $\frac{1}{L^2}$ – intercept C and the $\sin^2 i$ – intercept B.

C = _____

(1 mark)

B = _____

(1 mark)

(j) Calculate the value of Q given by;

(2 marks)

$$Q = - \left(\frac{C}{S} \right) \div B$$

(k) Hand in your constructions on the plain paper together with the answer script. (2marks)

QUESTION 2

PART A

You are provided with the following:

- Two dry cells and a cell holder
- One voltmeter ($0 - 5V$)
- One ammeter ($0 - 1A$) or ($0 - 2.5A$)
- Six resistors labeled AB
- One resistor labeled R
- A switch
- 7 connecting wires

(a) Set up the circuit as shown in figure 2

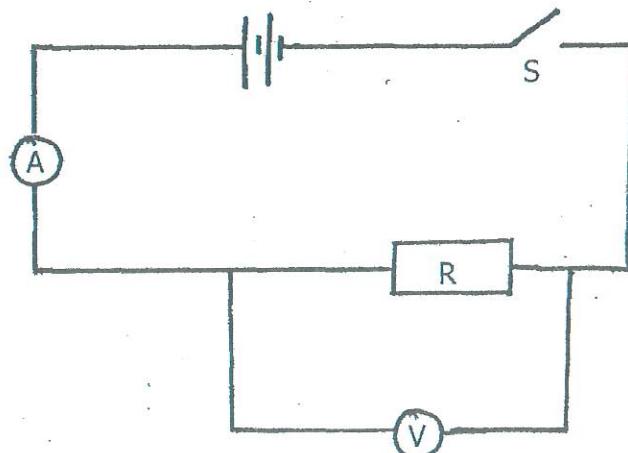

FIG 2

(i) Close the switch, s. Read and record the voltmeter and ammeter readings (1mks)

V = _____ volts

I = _____ Amperes

(ii) Determine the value of R given that $R = \frac{V}{I}$ (1mk)

(b) Set the circuit as shown in figure 3

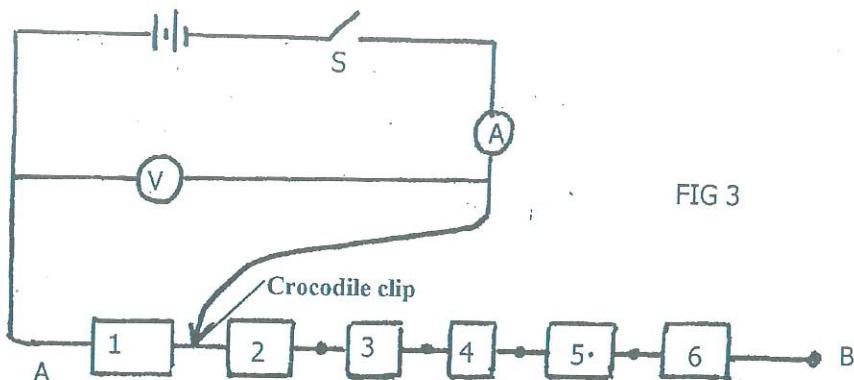

FIG 3

(i) With the crocodile clip across resistor 1 as shown in figure 3 above, close the switch, read and record the ammeter and voltmeter readings in table.

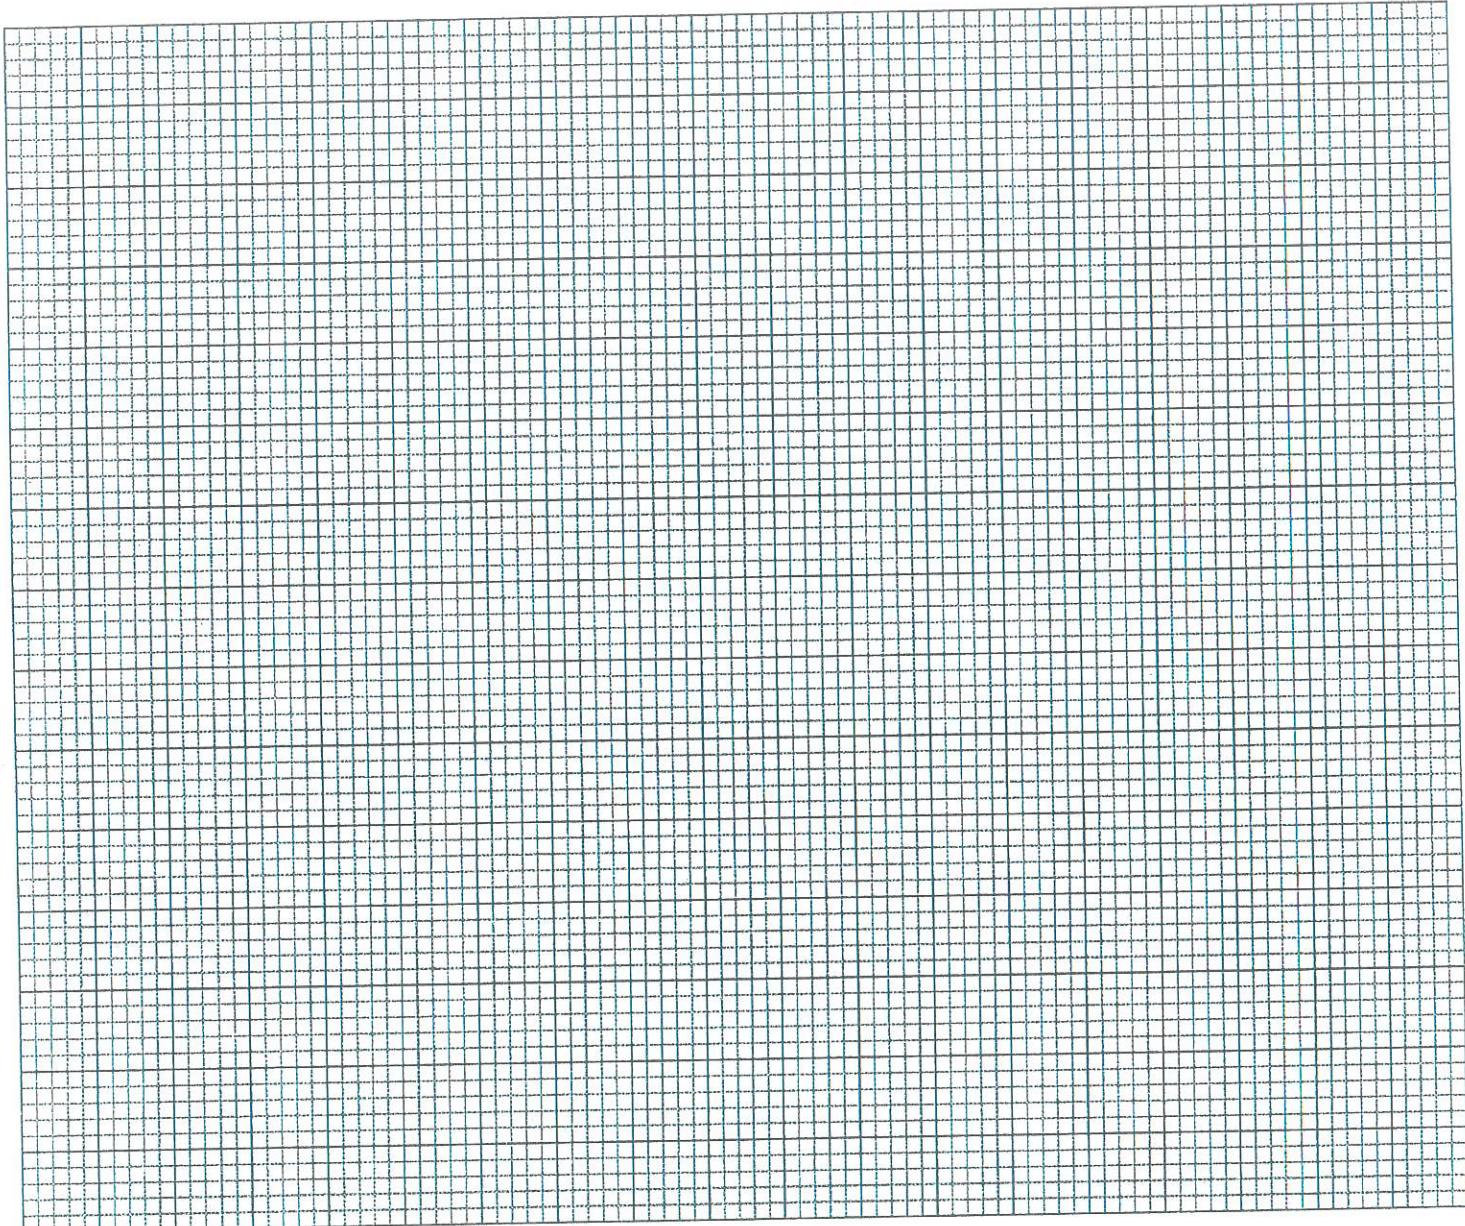

(ii) Repeat the procedure b (i) with crocodile clips across resistors 2, 3, 4, 5 and 6 respectively, each time recording the corresponding values for V and I in table 2

Number of resistors	1	2	3	4	5	6	7
p.d. (volts)							
Current I (Amperes)							

Table 2

(4mks)

(c) On the grid provided plot the graph of p.d (V) (y axis) against I (A) (5mks)

(d) Determine the slope of the graph at:

(i) $p.d = 2.5V$

(2mks)

.....
.....
.....
.....

(ii) $p.d = 2.8V$

(2mks)

.....
.....
.....
.....

(iii) What physical quantity is represented by the slope of your graph at any one point? (1mk)

PART B

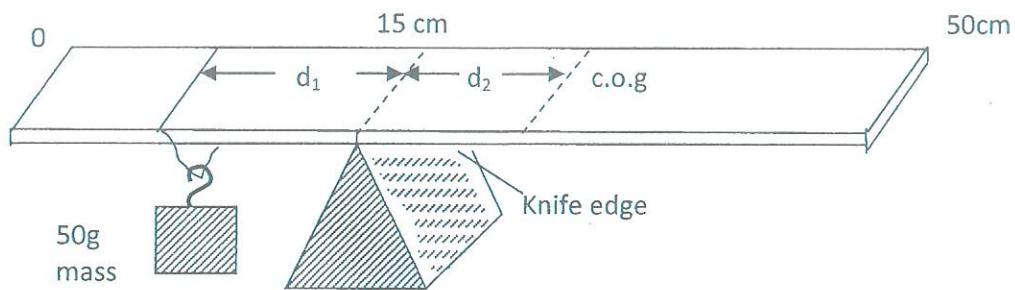

You are provided with the following;

- Half-metre rule
- Knife edge (raised)
- A thread (approx. 20cm in form of a loop)
- 50g mass

(a) Determine the c.o.g of the half-metre rule.

c.o.g. = _____ cm mark. (1 mark)

(b)

- (i) Pivot the rule at 15cm mark and balance it with the mass as shown. When it is well balanced, note and record the position of the 50g mass; **(1 mark)**
Position of 50g mass = _____ cm mark

- (ii) Use your results to determine the weight of the rule. **(2 marks)**
