C. COMPREHENSION

1. *Read the passage below and answer the questions that follow:*

BAKING soda or bicarbonate or edible soda (ENO), as it is also called, is sodium bicarbonate in chemistry books. It is different from washing soda or soda ash, which is sodium carbonate. Soda bicarbonate was called 'saleratus' in earlier days.

In the human body, it is the main mildly alkaline substance. The human body makes it out of carbon dioxide breathed in sodium obtained from the salt in the diet. it helps to maintain the delicate balance between acidity and alkalinity that is necessary for the normal chemical activity in the body. It helps transport carbon dioxide to the lungs, neutralizes stomach acids as a component of saliva, helps cut down on tooth decay. The blood of a healthy human being is slightly alkaline. When the amount of sodium bicarbonate in the blood is insufficient, we suffer from acidosis. The digestive juices from the liver and pancreas are alkaline. The gastric juice in the stomach is decidedly acidic and it contains hydrochloric acid.

To most people, baking or edible soda in tablet form or a powder is a comforting medicine to sooth acidity. A teaspoon dissolved in a glass of water is a popular and effective remedy for indigestion. A cupful dissolved in bathwater along with two cupfuls of starch helps relieve the itching of allergic reactions.

When mixed with water to form paste, it helps alleviate the pain of minor burns and a paste of soda bicarbonate and water or cold cream, relieves the discomfort of insects bites. For fungus on your feet, especially between your toes, apply a soda bicarbonate paste. For foot odour soak your feet in a solution of soda bicarbonate in water. Take soda bicarbonate and mix it with a little bit of water, and apply it with your fingers along the gum-line in your teeth. Brush your teeth after this. It will help you stop all sorts of gum diseases. Mixed with a little common salt, soda bicarbonate makes an excellent tooth powder. Most toothpaste contains a little soda bicarbonate.

As a formidable plaque deterrent soda bicarbonate was recognized as an efficient dental cleaner in 1931 only. Soda bicarbonate is now a major component of best selling toothpastes. There is exclusive soda bicarbonate toothpaste. From the home medical cabinet, soda bicarbonate has now moved to the industry. Today, it is used to curb acid emissions from chimneys and to help prevent acid rain, to keep toxic materials like lead and copper out of drinking water, to help in biodegradation of sewage and to remove contamination from soil. It may turn out to be world's 'greenest' natural chemical. It has more than 300j applications in industry and more and more uses are still being discovered. Soda bicarbonate is also added to cattle feed. Cattle raised for meat industry are fed a high energy, low-fibre diet to maximize weight gain, are given supplementary soda bicarbonate to speed up their digestion process. Dairy cows which are given a similar diet, also have soda (bicarbonate mixed with their feed).it (increases their milk production). Use of soda bicarbonate in baking was an instant success as a time-saver.

Yeast breads needing a rising time of two to three hours where quickly joined by quick-rising baking soda batters, breads and biscuits.

When soda bicarbonate is combined with an acid like vinegar (acetic acid), butter-milk containing lactic acid, carbon dioxide is released to create an instant cleaning agent.

Scour tarnished brass and copper pots with a paste of soda bicarbonate and lemon juice. They will shine once again. Flush one cup of soda bicarbonate down the toilet every week. It helps clean clogged septic tanks. For food stuck or burnt into pots and pans, cover the burned food generously with soda bicarbonate. Add enough hot water and let it soak for a few minutes. Wash thoroughly.

C) ORAL SKILLS (30MKS)

a) Oral Poem

Read the following oral poem and answer questions that follow (8 marks)

One hand cannot manage work
A threshing stick cannot thresh millet with
One hand
Some hands breed hatred at eating time
Nobody hates being assisted

Let millet be threshed
Let it be threshed, let it be threshed

Cut a threshing stick for me
A lazy wife
Is taken back to her parents
When the rain fails
It blames the wind
And a lazy woman
Blames the threshing stick
Cut a threshing stick for me-ii
My co-wife, cut me a threshing stick

You woman, owner of this occasion
Remember that work is the stomach
Take care not to starve us
The threshing sticks are sounding
Let the millet leave the threshing ground
